Virtual Technical Webinar on Permitting Program Enhancements

The Bay Area Air Quality Management District (Air District) is updating the policies and procedures associated with its “New Source Review” (NSR) Permitting Program.

Please join us at an upcoming virtual technical **webinar** to learn more about the important enhancements proposed to the Air District’s “New Source Review” (NSR) permitting program.

When: Monday, March 7, 2022

10:00 am – 11:30 am

Where: See virtual meeting link in the event item on the [Workshops](#) web page

The Policies and Procedures update will cover the following topics:

- Application Submittal Minimum Requirements
- Application Completeness Requirements
- Revisions to Applications
- Permit Condition Review
- Permit Condition Revisions after Permit Issuance

Who should attend? This technical webinar will focus on the changes to the Air District’s policies and procedures that may affect all permit applicants, but mainly impacts larger facilities such as power plants, petroleum refineries, chemical plants, manufacturing plants, wastewater treatment plants, landfills, and other large industrial facilities. **The presentation will be aimed at facility environmental staff, consultants, and others who regularly work on or review Air District permit applications for facilities** such as these. All interested members of the public are invited to attend.
