

## Anticipated Emissions Along the Supply Chain

A review of what we know

Carol Allen  
Assistant Manager  
Permitting, Title V, and  
Toxics Section

[callen@baaqmd.gov](mailto:callen@baaqmd.gov)  
415-749-4702

Carol reviews permit applications for the solid waste industry, energy recovery facilities, and organics recovery operations. She also implements the air toxics review programs for stationary sources.

Abhinav Guha, Ph.D.  
Principal Air Quality Engineer  
Exposure Assessment and  
Emissions inventory Section

[aguha@baaqmd.gov](mailto:aguha@baaqmd.gov)  
415-749-5192

Abhinav leads Air District efforts to verify and validate regional emissions inventories of air pollutants especially that of GHGs through a combination of measurements and advanced emissions data products, as well as improved inventory estimation methodologies.

Sally Newman  
Air Quality Specialist  
Climate Protection Section

[snewman@baaqmd.gov](mailto:snewman@baaqmd.gov)  
415-749-8715

Sally operates the greenhouse gas measurement program at the Air District, which includes a fixed site network and a research van.
