SUBJECT: **PUBLIC WORKSHOP – DRAFT AMENDMENTS TO REGULATION 3: FEES**

The Bay Area Air Quality Management District will conduct a public workshop on **Thursday, February 18, 2016, starting at 10:00 AM**, to discuss draft amendments to District Regulation 3: Fees. The workshop will be held in the 7th floor Board of Directors meeting room at the District's office located at 939 Ellis Street in San Francisco and will be simultaneously webcast.

The amendments to the District's FYE 2017 fee regulation would be effective on July 1, 2016, and would increase fee revenue in order to help the District recover a greater share of the costs the District incurs in implementing and enforcing regulatory programs for stationary sources of air pollution. The following changes to the District's existing Fee Schedules are proposed based on a recently updated analysis of cost recovery for regulatory programs:

Schedule A	Hearing Board Fees	9% increase

Schedule C	Stationary Containers for the Storage of Organic Liquids	2.2% increase
Schedule D	Gasoline Transfer at Gasoline Dispensing Facilities, Bulk Plants and Terminals	9% increase
Schedule E	Solvent Evaporating Sources	9% increase
Schedule F	Miscellaneous Sources	8% increase
Schedule G1	Miscellaneous Sources	9% increase
Schedule G2	Miscellaneous Sources	9% increase
Schedule G3	Miscellaneous Sources	8% increase
Schedule G4	Miscellaneous Sources	9% increase
Schedule G5	Miscellaneous Sources	2.2% increase

Schedule S	Naturally Occurring Asbestos Operations	9% increase
Schedule T	Greenhouse Gas Fees	7% increase
Schedule U	Indirect Source Review Fees	2.2% increase
Schedule V	Open Burning	9% increase

The following specific fees in Regulation 3 are proposed to be increased 2.2% based on the annual Consumer Price Index for Bay Area Urban Wage Earners and Clerical Workers (CPI-W):

- Section 3-302: New and modified source filing fees
- Section 3-307: Transfers
- Section 3-309: Duplicate Permit or Registration
- Section 3-311: Banking filing fee and withdrawal fee
- Section 3-312: Regulation 2, Rule 9 Alternative Compliance Plan fee
- Section 3-318: Public Notice Fee, Schools
- Section 3-320: Toxic Inventory maximum fee
- Section 3-327: Permit to Operate renewal processing fee
- Section 3-337: Exemption Fee

The following additional amendments are proposed:

- **Create a new Schedule W: Petroleum Refining Emissions Tracking Fees.**
 - Schedule W would apply to the five Bay Area petroleum refineries. The revenue from this fee schedule would help recover the costs of the District's programs associated with proposed new Regulation 12, Rule 15.
 - The proposed refinery emissions inventory and crude slate report submittal fees are \$60,000 initially and \$30,000 for subsequent annual submittals. Also, a one-time fee of \$7,500 is proposed for each Air Monitoring Plan submitted.
- **Create a new Schedule X: Major Stationary Source Community Air Monitoring Fees.**
 - Schedule X would apply to Major Stationary Sources with emissions above 35 tons per year. The new fee schedule would help recover costs associated with the District's community air monitoring program.
 - The proposed fees are: \$60.61 per ton of organic compounds, sulfur oxides, nitrogen oxides, PM10 and/or carbon monoxide emissions.
- Update the Global Warming Potential Values in Schedule T (Greenhouse Gas Fees) and references.
- Set the maximum fee for abatement device only permit applications at \$10,000 in Section 3-302.3.
- Set the alteration fee in Section 3-304 for gasoline dispensing facilities subject to Schedule D at 1.75 times the filing fee (about \$800 per application).
