

Clean HEET Program

OPPORTUNITIES FOR GREEN HOME UPGRADES

Learn about programs that provide incentives for the installation of heat pumps, including the Bay Area Air Quality Management District's (BAAQMD) <u>Clean Heating Efficiently with Electric Technology (Clean HEET) Program</u>, and other and additional incentives and opportunities for residents wanting to make green upgrades to their homes. Offerings include incentives for water heaters and insulation, free energy assessments, financing and/or project management support for low-income residents, and more.

Learn more in the table below, or find opportunities by zip code here https://incentives.switchison.org/
