

BAY AREA AIR QUALITY MANAGEMENT DISTRICT

FUNDING PROGRAMS

FOR RESIDENTS:

Passenger Car and Light-Duty Truck Retirement – The Vehicle Buy Back Program pays Bay Area residents \$1,200 per vehicle to turn in their operable, registered, model year 1997 and older passenger car or light-duty truck for scrapping. Vehicle Buy Back, www.baaqmd.gov/VBB

Clean Transportation for Low-income Households – Low-income families can scrap an old vehicle and get a grant to reduce the cost of an electric vehicle, e-bike, or public transit. Clean Cars for All, www.baaqmd.gov/CleanCarsforAll

Coming Soon: Wood-Burning Stove Changeouts for Wood Smoke Reduction – Beginning in the later part of 2021, this program will offer grants to low-income residents and residents in overburdened communities to replace qualifying woodburning devices with zero-emission heat pumps. Woodsmoke Program, www.baaqmd.gov/WoodSmokeGrant

FOR PUBLIC AGENCIES AND BUSINESSES:

Electric Vehicle Charging Stations - Grants for the purchase and installation of publicly accessible electric vehicle charging stations. Applications due on March 18, 2021. Charge!, www.baaqmd.gov/Charge

Greenhouse Gas Technologies - Loans or loan guarantees for Bay Area municipalities, schools, hospitals, and industrial facilities to adopt emerging technologies that reduce greenhouse gas emissions. Climate Tech Finance, www.baaqmd.gov/CTF

Diesel Emission Reductions in Communities - Grants to replace on- and off-road dirtier diesel engines with cleaner technologies, and install related alternative fueling or charging infrastructure, in West Oakland, Richmond-San Pablo, and other impacted communities. Community Health Protection Grant Program, www.baaqmd.gov/AB617grants

Diesel Engine Replacements and Clean Tech Infrastructure - Grants to upgrade or replace heavy-duty on-road vehicles, school buses, transit buses, off-road and agricultural equipment, marine equipment, and locomotives, and to install infrastructure that supports advanced clean vehicles and technology, throughout the Bay Area. Carl Moyer Program, www.baaqmd.gov/Moyer

Coming Soon: Goods Movement Equipment Replacements and Fueling Infrastructure - Grants to replace freight movement equipment including trucks, locomotives, cargo-handling equipment, transportation refrigeration units, and insulated cold-storage. Also, berth electrification and emissions capture & control equipment at ports and fueling/charging infrastructure. Goods Movement Program, www.baaqmd.gov/goods

STATEWIDE PROGRAMS FOR PUBLIC AGENCIES AND BUSINESSES:

Volkswagen NOx Mitigation Program, www.californiavwtrust.org

- **Zero-Emission Transit and Shuttle Buses** – Grants available to owners of transit and shuttle bus fleets to support early adoption of zero-emission bus technologies. Administered by the San Joaquin Valley Air Pollution Control District.
- **Zero-Emission Class 8 Freight and Port Drayage Trucks** – Grants to support the expansion of zero-emission truck availability in the heaviest weight class. Administered by the South Coast Air Quality Management District.
- **Coming Soon: Light-Duty Electric-Vehicle Infrastructure** – Grants for installation of charging infrastructure for light-duty EV is anticipated to open in early 2021. Administered by the BAAQMD.
- **Coming Soon: Zero-Emission Freight and Marine** – Grants for zero-emission off-road equipment projects such as airport ground support equipment, heavy-lift forklifts, port cargo handling equipment, tugboats, ferries, and shore-power systems. Anticipated to open in early 2021. Administered by the BAAQMD.
